

Endless Music

Two internal streaming sources lets you play music from thousands of internet radio stations via Pandora or TuneIn or from your mobile device, even from network attached storage, all controlled by an auto discovery app (iOS and Android) or keypads that put you in control.

Two additional inputs connect your favorite devices so you can hear them everywhere.

The four powered stereo outputs deliver an enviable 30 watts per room, simply add more Mini4's to expand up to 32 rooms. This is a hidden audio system with that can fill your world with music.

Unrivalled Control

The internal webpage has all the customization needed to control and configure the system the way you like it. The **FREE** app (iOS and Android) auto discovers the Amplifier so there is no complex setup.

Two keypad ports allow for wall mounted keypads to control your system or use the KPC-N 2.8" wall mounted color touchscreen where all zones can be controlled.

Audio Control

Adjustable Bass, Treble, Balance, Loudness and audio delay fine tunes your system to your exacting needs.

Prepare to be spellbound in as many rooms as you need....

Technical Specifications
