

AXIUM AX-MINI4 + AMM

The mini home audio system that delivers maximum features

Endless Music

The four powered stereo outputs deliver an enviable 30 watts per room, simply add more Mini4's to expand up to 32 rooms. This is a hidden audio system that can fill your world with music.

One Optical and one RCA input via the Baltx2 and one additional RCA input on the Mini4 connects your favorite devices so you can hear them everywhere along with two configurable Digital Input or Output connections.

When used in conjunction with the AX-AMM Media Manager, internet streaming sources lets you play music from thousands of internet radio stations from TuneIn Radio, listen to Spotify Connect, Tidal or from your mobile device, even from network attached storage, all controlled by the free auto discovery app (iOS and Android) or keypads that put you in control.

Unrivalled Control

The internal webpage has all the customization needed to control and configure the system the way you like it. The **FREE** app (iOS and Android) auto discovers the Amplifier so there is no complex setup.

Two keypad ports allow for wall mounted keypads to control your system or use the KPC-N 2.8" wall mounted color touchscreen where all zones can be controlled.

Audio Control

Adjustable Bass, Treble, Balance, Loudness and audio delay fine tunes your system to your exacting needs.

Prepare to be spellbound in as many rooms as you need....

Technical Specifications

- 15 Watts per channel. 30 Watts per Zone @8Ω
 - Fully implemented UPNP server and discovery functionality
 - Output short circuit, thermal and hard clipping protection
 - 1 x Airplay stream
 - 5 Source inputs:
 - 1 x local RCA source input
 - 1 x Balanced RCA input (on the BALTX2)
 - 1 x Optical source input (on the BALTX2)
 - 2 x Configurable Digital input/outputs
 - Expandable to 32 zones
 - 4 Band EQ
 - Bass, Treble, Balance Loudness adjustments per zone
 - Two keypad ports for in room keypad control
- Internal Web Page with user control and setup pages.
 - FREE app** for both iOS and Android systems
 - 600ms of adjustable audio delay per zone
 - IR output for control of local 3rd party devices**
 - Zone linking features
 - Static and DHCP network capability
 - External 15v DC Power Supply
 - Dimensions: 165mm x 147mm x 35mm

*** Recommended configuration by Custom Installation Professional using ADP*

AXIUM AX-AMM MEDIA MANAGER

A new way of thinking

For too long we have been relying on many individual streaming boxes sitting side by side in a rack just to listen to our favorite music. Axiu have looked at this issue and developed a neat and simple solution that provides 12 audio streams in one box, with one power supply and one Ethernet connection all packed into a sleek black box no bigger than your hand and cheaper than what some others charge for two streamers!

4 Digital Coax and 8 network streams (12 streams in total)

The AX-AMM features 4 digital coaxial connections and 8 internal network streamers. (This provides a total of 12 physical sources available to any Axiu amplifier on the network*)

At release the AX-AMM will support Apple Airplay, Spotify Connect, Multiple Pandora accounts, TuneIn, Network shares (UPnP, SMB), play from your device and Axiu Favorites. Axiu will offer new services via a firmware update in the future including IR output to control 3rd party devices like sound bars and AV receivers***. The AX-AMM supports a large list of audio files. Included in this list is AAC (MPEG4), FLAC (lossless) and WAV files. The AX-AMM supports up to 96 kHz sampling rates.

Simple setup

Complete customization is also available via ADP where you can (among other things) decide what outputs are connected to what inputs on the AX-1250 and AX-400 amplifiers as well as what streaming services to allow. A plug into the network and play music functions on the App will be available shortly after being released.

Any source from any amplifier and the Media Manager can be accessed in any Zone

AXIUM AX-AMM MEDIA MANAGER

Technical Specifications

-)] Apple Airplay for each media player stream**
-)] Spotify Connect for each media player stream**
-)] Multiple Pandora accounts supported**
-)] TuneIn Internet streaming**
-)] Local mobile device music playback (iOS and Android) and UPnP push functionality
-)] Network share (NAS or PC) playback (UPnP, DLNA and SMB)
-)] 12 Audio Streams:
 - o 1 - 4 Digital Coax (PCM)
 - o 5 - 12 Network stream via RJ45 (10/100)
-)] Support for up to 96 KHz 16 Bit stereo audio
-)] Send IR to control 3rd part devices***
-)] Auto integration into AX-Mini 4 and AX-1250 media players
-)] KPC-N applet
-)] Alarm capabilities via amplifier
-)] One 12VDC power supply
-)] Static or DHCP network connections
-)] Dimensions: 110 L x 89 W x 30 D mm

Audio formats supported as of December 2016	
MP3	Standard and variable bit and sample rates
WAV	8 and 16bit PCM up to 48kHz. No metadata. (96kHz)
M4A/MP4	Up to 48kHz and 576kBits/s. (96kHz)
AAC	48, 96K
OGG/OGA	2Ch, 500kBits
FLA C	Up to 48 kHz and 24 bit 96kHz
HD FLAC 24 / 96	24,96K
HD WAV	24,96K
ALAC	24, 96K
AIFF	24, 96K

* AX-Mini 4 has access to the network streams

* AX-1240 has access to the 8 network streams and the 4 digital coax connections

* AX400 has access to the digital coax connections

**An internet connection is required Internet streaming services. ISP charges may apply. Future services may be added. Pandora is not available in Australasia.
